SILVERTEX® & WHISPER™

Get rid of stains with one of the following steps. Begin with Step 1 and advance to the next step until the stain is removed, or start on the step that corresponds with the type of stain indicated.

Permablok3® Care and Cleaning Guide: SILVERTEX®

STEP 1	Common stains: eye shadow, mascara, grease, black felt tip pen, crayon, chocolate, suntan lotion, and hair/body oils*
	Remove excess spill with a damp cloth. Use a 1:1 mix of Ivory® liquid soap and water. Rub gently with a soft clean cloth, rinse with clean water and dry.
STEP 2	Common stains: red lipstick
	Use a straight application of concentrated cleaners such as Formula 409® or Fantastik® spray cleaner. Rub gently with a soft clean cloth, rinse with clean water and dry.
STEP 3	Common stains: blood, urine, feces, oil base paint, tar and asphalt
	Use a 1:1 mix of ammonia and water, or a 1:4 mix of bleach and water. Rub gently with a soft clean cloth, rinse with clean water and dry.
STEP 4	All other tough stains
	Use a cotton cloth saturated in a 1:1 mix of isopropyl alcohol and water. Rub gently in a circular motion 10 times. Pat dry and check the results. If the stain persists, use straight alcohol and rub the stain again using the circular motion. Rinse thoroughly with clean water and pat dry.

*Must be cleaned after each instance of exposure to hair and body oils.

NAPA™ Care and Cleaning Guide: WHISPER™

STEP 1	Light soiling
	Use a solution of 10% household liquid dish soap and 90% warm water. Rub gently with a soft clean cloth, rinse with clean water and dry.
STEP 2	Heavy soiling
	Use a one to one (1:1) solution of Formula 409® or Fantastik® and water. Rub gently with a soft clean cloth, rinse with clean water and dry.
STEP 3	More difficult stains
	Use a solution of 10% household bleach and 90% warm water. Rub gently with a soft clean cloth, rinse thoroughly with clean water to remove bleach, and dry.

Do not use with alcohol-based cleaning agents.

The information published in this care guide refers to the performance of PERMABLOK3® products in specific tests conducted under laboratory conditions. Results may vary under actual conditions.

This information is not a guarantee and does not relieve the user from the responsibility of the proper and safe use of the product and all cleaning agents. The use of certain agents can be harmful to the surface appearance and lifespan of vinyl. Spradling, its agents and assigns assume no responsibility resulting from the use of such cleaning agents to the vinyl.

Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible.

Spradling International, Inc. will not assume responsibility for dye transfer caused by external contaminants. Please check compatibility when using this product in combination with painted or varnished surfaces.

Some products may contain chemicals, identified by the State of California as a cause of cancer, birth defects or other reproductive harm at certain exposure levels. Under the California law known as "Prop 65", certain warnings to consumers in California are required where such products are sold. The presence of such chemicals in coated fabric products, even at extremely low concentrations, can lead to disputes over Prop 65 warning obligations that are very difficult to resolve. If your company intends to introduce Spradling vinyl products into commerce in California, Spradling recommends that you take steps to confirm whether the warning requirements of California's "Prop 65" are applicable to the products in question and whether your company is complying with those warning requirements for the chemicals contained within these products.
